SUMMARY

Software Developer with 4 years of experience specializing in Full-Stack and Backend development. Skilled in designing and building high-performance web applications and APIs. Passionate about learning new technologies and committed to delivering high-quality solutions that meet business goals.

PROFESSIONAL EXPERIENCE

Kiatnakin Phatra Financial Group

2024 – Present

Golang Developer

- Developed backend microservices in Golang for financial systems including Thinker (auto loan) and Home Loan (mortgage), using frameworks like Gin, Echo, and Fiber.
- Designed and managed PostgreSQL databases and implemented Redis caching to improve system performance and data access speed.
- Implemented REST APIs for external client interactions and gRPC for efficient inter-service communication within a distributed microservices architecture, with Kafka integrated for real-time streaming and event-driven messaging.
- Led deployments via Jenkins CI/CD, including pipeline creation, and wrote unit tests for core services. Also resolved production issues and collaborated with the team to support client needs.

Avalant Co., Ltd.

2021 – 2024

Full-Stack Developer

- Developed and maintained Center Web, a business communication platform, using React with Ant Design and Bootstrap for a consistent UI. Implemented real-time messaging features including chat rooms, notifications, message synchronization, and support for text/image posts.
- Designed and developed backend APIs using Gin (Golang), Node.js, Express, and GORM/PostgreSQL to serve various modules and frontend requirements, including FileHub APIs for unified file management.
- Led the development of the Case Management module, enabling task tracking via workflows, template forms, rules, and system integrations. Also handled system testing, documentation, and user training.
- Collaborated closely with the team using Git for version control and integration, continuously improving the platform based on user feedback and testing.

EDUCATION

University of Phayao, San Francisco, CA

2021

Bachelor's Degree in Computer Science

GPA : 3.82

SKILLS

Programming Languages: HTML ,CSS ,JavaScript , TypeScript , JQuery , Golang

Frameworks & APIs: RESTful APIs, gRPC, GraphQL

Architecture & Messaging: Microservices, Event-Driven Architecture, Apache Kafka

Databases: MySQL , PostgreSQL , MongoDB , Redis

Tools and Software: Visual Studio Code , DBeaver , Git , GitHub , Docker , Postman , Jenkins
